New Delhi - India

Candidate Briefing Pack

2026

JK Group Overview

JK Organization is a multinational group head-quartered in India with a heritage of more than 138 years. The Group has multi-business, multi-product, and multi-location operations, with its footprints in various countries across the globe. It has overseas manufacturing operations in Mexico, Indonesia, Romania, Belgium, Portugal, and UAE.

The Group today makes up one of India's largest conglomerates with an annual turnover exceeding US \$4 Billion. It is an association of over 40 companies, employing 40,000 people worldwide in Manufacturing, Retail, Construction, Logistics & Transportation, Insurance, Chemicals, Healthcare, Education, Software and IT Services, Agri Inputs, Dairy, Clinical research, and insurance solutions.

Products of the Group companies have a strong brand recall and enjoy a significant market share in their respective segments. The strong brand equity of the Group has been built through use of latest technologies, continuous research & development, and innovation. The Organisation has set up highly reputed Research and Development Institutes in various fields.

About the Role

Role: Business Head – Electronics Manufacturing Service

Location: New Delhi, India

Reporting to: Managing Director

Objective of the role:

The incumbent is expected to lead the establishment, growth, and management of the Electronic Manufacturing Division with complete P&L accountability, steering strategy, business expansion, and building the organization from the ground up.

He/she shall also lead post-acquisition integration and transformation, ensuring seamless cultural, operational, and commercial alignment of the acquired entity.

Responsibilities:

- Define and execute local & global market strategy and path to scale business.
- Lead full P&L ownership for the Electronic Manufacturing Division, ensuring top-line growth, margin expansion, and capital-efficient scaling.
- Build a high-calibre leadership team and organizational structure that can scale globally.
- Lead end to end business decisions (along with leadership team) for product lifecycle management, value-proposition build, customer partnerships, strategic diligence for inorganic growth targets.
- Represent the division at board/CXO level, managing senior customer introductions, partnerships, and ecosystem positioning.
- Engage with global OEMs, Tier 1s, to anchor strategic customer relationships and establish company as a credible, innovative EMS partner.

Candidate Profile:

- 15+ years of progressive leadership experience in electronics manufacturing (EMS), preferably in automotive / industrials / medical devices, with proven P&L accountability
- Demonstrated success in scaling multi-site, global manufacturing businesses.
- Exposure to SMT setup, Box Build capability, high-mix flexible-volume manufacturing, and backward integration.
- Adept at stakeholder management: board members, investors, regulators, and global customers

- Recognized for visionary leadership, strategic foresight, and building organizations from scratch.
- Entrepreneurial mindset with ability to shift between OEM/ODM product-ownership thinking and EMS service-partner orientation.
